

## Freightways: a group of companies that offers total, worldwide logistics

*Freightways Internationale Expeditie B.V. is specialized in worldwide transports by road, sea and air and in cooperation with the other Freightways companies, we offer our customers a total logistic concept.*

### International Transportation and Freight Forwarding

Your products destined for European markets must arrive at the right time and in the right condition. With Freightways managing your European Supply Chain, you can be assured that a professional logistic service provider is handling your products.

Freightways International Forwarders offers complete worldwide transportation services. Using our agency network of transportation providers we can offer **speed, quality and flexibility**.

Our high quality total logistics concept includes:

#### Ocean Freight Services

- Full container load services (FCL)
- Consolidated Services (LCL)
- Deep-Sea and Short-Sea Services
- Inland container shipping (to European inland terminals)

#### Road Transportation Services

- Consolidated transportation services to and from all Western and Eastern European destinations
- Full-Truck services
- Dedicated transportation services
- Couriers and Express transportation services
- Integrated transportation services

#### Airfreight

- Global consolidated Import and Export services
- Full and part air charters

#### Intermodal Transportation

- Piggy Back services (road/rail)
- Roll on / Roll off services (RoRo)

**From a full container or truck to a pallet by air: Freightways takes care of your shipments**
