Of the Freightways premises

Our history

First Warehouse

Due to popular demand more services were added in the form of warehousing and distribution. Our first warehouse was opened in Alphen a/d Rijn

1986

Founded

Freightways started with forwarding services by road, rail, air and sea.

1990

1997

On the move

Freightways moved into their current warehouse in Katwijk (ZH), The Netherlands

2000

Complete package

Freightways' service package becomes complete with the addition of Fiscal Representation

2001-2011

Certifications

Certified for organic products (SKAL/EKO), Authorized Economic Operator (Simplify Customs processes) and Known Consignor (Air freight skips expensive screenings at airports)

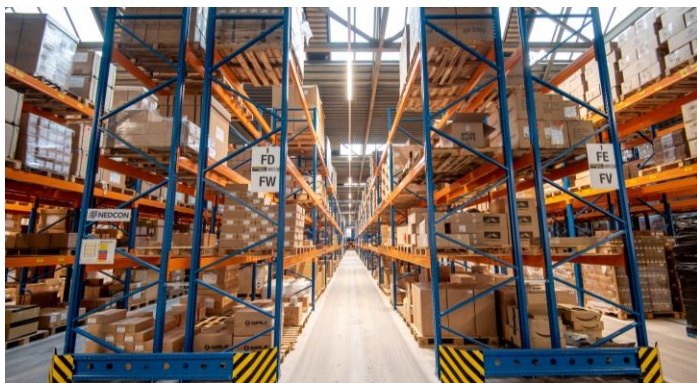

Expansion

Freightways' warehouse grows to 13,000 square meter or 142,000 square feet

2019

Our Services

Warehousing

- Our warehouse has a square footage of 142,000 feet / 13,000 square meters. It is ideally situated in a central location in Europe and The Netherlands and has over 26,000 storage locations. These locations are divided in pallets, shelves and bins.
- Freightways' warehouse is licensed and able to hold bonded stock and has a SKAL certification to store organic products.

Distribution

- Freightways ships over 70,000 orders annually worldwide using all means. By sea, road, rail and air. It's all possible
- Freightways is an Authorized Economic Operator which gives us and our customers certain benefits when importing or exporting goods. Customs processes are simplified and wares shipped to and from our warehouse are rarely subdued to random checks by Customs, saving both you and us time and money.

Freight Forwarding

- International Freight Forwarding was the first service offered by Freightways when the company was founded in 1986.
- Customs, language barriers and finding the right shipper can become hurdles when dealing with international freight forwarding. With Freightways as your logistic service provider, you are assured that your freight is handled by professionals.

Our Services

Fiscal Representation

- As a foreign entrepreneur exporting goods to the European Union, it is required that you have a European VAT-number or that you import the goods under the VAT number of your representative. This is dependent on the form of fiscal representation you choose.
- Under limited representation you are ONLY able to sell B2B and your goods will be imported using Freightways' VAT number. Under general representation you are able to sell both B2B and B2C and we will request a Dutch VAT number of your own.

E-fulfilment

- E-commerce is booming and Freightways can help you with the logistics of your online store. Directly from your customers' order we take care of correct and on time delivery and possible returns.
- Our WMS is capable of interfacing messages between your online store and our system. We can offer you a standard plug-in for either Magento 2.0, WooCommerce, Lightspeed or Shopify.

Value Added Logistics

- Value Added Logistics are implemented to customize products to meet individual requirements. They should increase your market flexibility and customer service while mitigating inventory and transportation costs. These activities will help you bring your product to more markets in a comprehensible and efficient way.
- Our VAL activities include, but are not limited to: Translation and inclusion of instruction leaflets and manuals, labelling, assembly, bagging in all sizes, repacking and more.

Mission statement & Vision

Mission Statement

It is Freightways' mission to offer complete logistic services of high quality to our customers whom we unburden by commanding part, or all, of their supply chain in a transparent, flexible and reliable manner.

MISSION

VISION

Vision

Our vision is to become a sizeable logistic service provider while still staying modest and appreciative of both our customers and our employees. Partnership is at the core of our values and we believe that long term relationships give the best results. The longer we know our customers, the better we can serve them.

The Benefits of a 3PL

02

**Expand your
business into
new markets**

Markets that were normally out of your reach are made available through means of a 3PL

04

**Flexibility and
scalability**

Freightways offers you flexibility and scalability to utilize supply and distribution resources based on current business needs. Meaning, when sales are down, there are no redundant investments and unutilized resources. At the same time when there's a surge in demand, you can upscale.

01

**Economies of
scale**

Sharing a warehouse with our other customers means you share the costs as well. There is also no need for a big initial investment.

03

**Expertise and
experience**

You might not be too experienced when it comes to logistics. Freightways and its employees live and breathe it. Let the professionals handle it so you can focus on your core business.

05

**Improve
customer
satisfaction**

Doing business with a 3PL will result in improved services and response time, timely deliveries and greater brand reliability. Your customers will definitely notice the difference.

Why choose Freightways?

Geography

Freightways is centrally located in Europe and close to Port of Rotterdam and Schiphol Airport

Ask our customers why

Our customers rated Freightways 9/10 according to a survey conducted in 2020

Certifications

Freightways is an Authorized Economic Operator which simplifies customs handling and is SKAL certified for organic products

Comprehensive Logistics

Freightways offers a complete service package allowing us to take care of your supply chain from start to finish

Flexible and reliable

We go the extra mile for our customers and find solutions wherever necessary

Our Customers

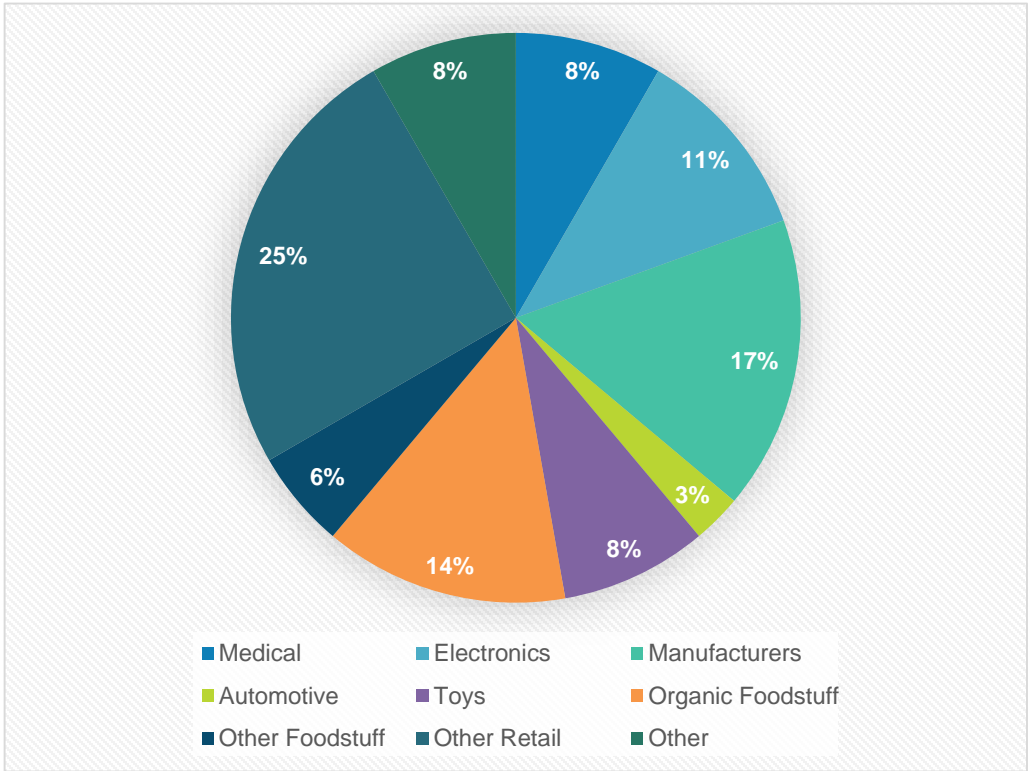

Where most 3PL companies choose to focus on one industry, Freightways welcomes everyone with open arms.

Our customers are active in a wide range of industries selling vastly different products, for each of which we have a tailored solution.

Freightways' customers by industry

Information Technology

WMS portal

Through Freightways' portal you can access our warehouse management system and keep tabs on your stock 24/7 in real-time.

Web shop integration

Our renewed WMS is capable of interfacing messages between your online store and our system. We can offer you a standard plug-in for Magento 2.0, WooCommerce, Lightspeed or Shopify.

Weekly updates

In addition to the wms portal, you will be sent regular updates and confirmations of arrival/departure. This can be done daily or weekly and ensures you are up to date on all mutations of your stock.

Competitive Strategy

Customer Intimacy

Partnership between Freightways and her customers is of the utmost importance. There needs to be a high level of trust and clear communication in order to have a working relationship. Freightways recognizes this and cultivates strong relationships with all her customers in order to provide them with tailor-made solutions.

Traditionally, companies can choose one or two sides of this triangle to determine their competitive strategy

Operational Excellence

Freightways' services are standardized and streamlined through years of experience. A state of the art warehouse management system and educated staff ensure all operations run smoothly. This leaves us with more time for customer support and thinking of ways to improve.

In a few words

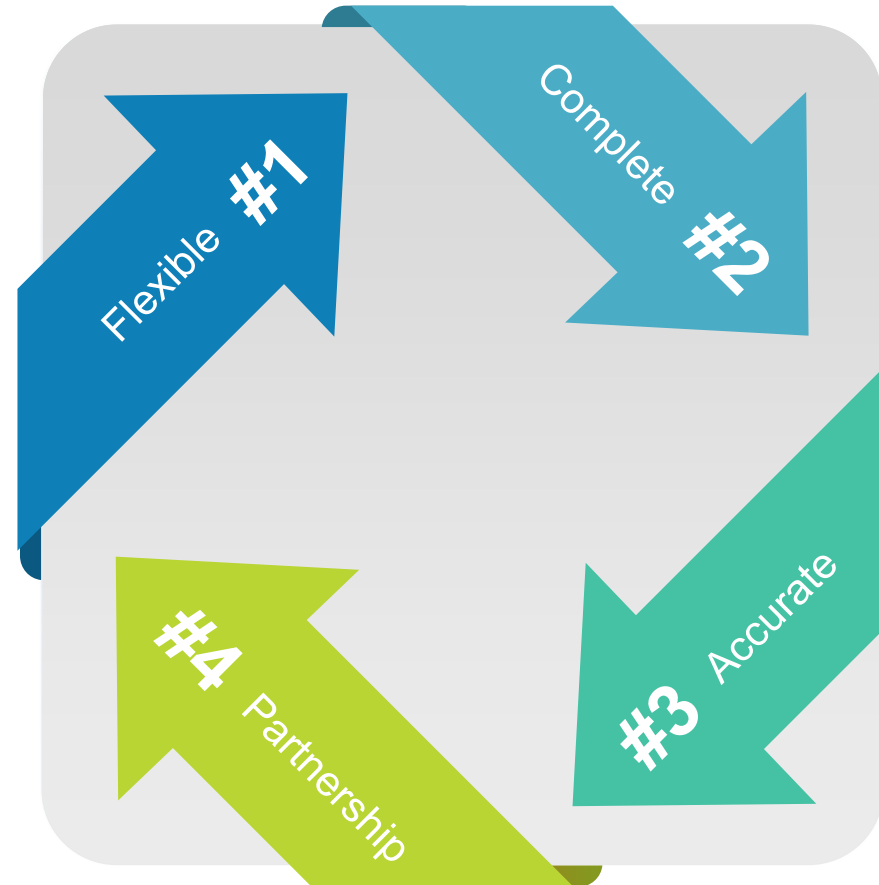

Flexible

Freightways will always try to find a supply chain solution that suits you. Tailor-made warehousing and worldwide distribution are just the start.

Partnership

Mutual trust and reliance is paramount in any business relationship. To us, it is important to have strong ties with both customers and staff. We believe a strong partnership helps us attain the best results.

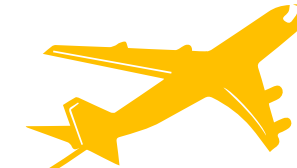

Complete

Beyond warehousing and distribution there's much more Freightways has to offer. International freight forwarding, fiscal representation, Value Added Logistics. We have all bases covered and can provide each of your logistical needs.

Accuracy

Over the course of 2020, all goods inbound to the Freightways warehouse have been stored with 99,8% accuracy. When it comes to order picking and shipping the margin of error is also immensely small. It is one of the things our customers praise us for.

Interested?

Should you have any logistical needs, please do not hesitate to ask about your options with us. Whether it's for warehousing and distribution, freight forwarding or our complete service package. Freightways has the supply chain solution for you
